

## Appendix 16: Definitions of Abuse: Adults at Risk – England

The Care and Support Statutory Guidance Issued under the Care Act 2014 (Department of Health), provides the following categories of abuse:

**Physical abuse** – including assault, hitting, slapping, pushing, misuse of medication, restraint or inappropriate physical sanctions.

**Domestic violence** – including psychological, physical, sexual, financial, emotional abuse; so called 'honour' based violence.

**Sexual abuse** – including rape, indecent exposure, sexual harassment, inappropriate looking or touching, sexual teasing or innuendo, sexual photography, subjection to pornography or witnessing sexual acts, indecent exposure, sexual assault or sexual acts to which the adult has not consented or was pressured into consenting to.

**Psychological abuse** – including emotional abuse, threats of harm or abandonment, deprivation of contact, humiliation, blaming, controlling, intimidation, coercion, harassment, verbal abuse, cyber bullying, isolation or unreasonable and unjustified withdrawal of services or supportive networks.

**Financial or material abuse** – including theft, fraud, internet scamming, coercion in relation to an adult's financial affairs or arrangements, including in connection with wills, property, inheritance or financial transactions, or the misuse or misappropriation of property, possessions or benefits.

**Modern slavery** – encompasses slavery, human trafficking, forced labour and domestic servitude. Traffickers and slave masters use whatever means they have at their disposal to coerce, deceive and force individuals into a life of abuse, servitude and inhumane treatment.

**Discriminatory abuse** – including forms of harassment, slurs or similar treatment; because of race, gender and gender identity, age, disability, sexual orientation or religion.

**Organisational abuse** – including neglect and poor care practice within an institution or specific care setting such as a hospital or care home, or in relation to care provided in one's own home. This may range from one-off incidents to ongoing ill-treatment. It can be through neglect or poor professional practice as a result of the structure, policies, processes and practices within an organisation.

**Neglect and acts of omission** – including ignoring medical, emotional or physical care needs, failure to provide access to appropriate healthcare and support or educational services, the withholding of the necessities of life, such as medication, adequate nutrition and heating.

**Self-neglect** – this covers a wide range of behaviour neglecting to care for one's personal hygiene, health or surroundings and includes behaviour such as hoarding.

Incidents of abuse may be one-off or multiple, and affect one person or more, therefore one needs to look beyond single incidents or individuals to identify patterns of harm. Patterns of abuse vary and include:

- serial abusing in which the perpetrator seeks out and 'grooms' individuals. Sexual abuse sometimes falls into this pattern as do some forms of financial abuse;
- long-term abuse in the context of an ongoing family relationship such as domestic violence between spouses or generations or persistent psychological abuse; or
- opportunistic abuse such as theft occurring because money or jewellery has been left lying around.
